BURDUR MEHMET AKİF ERSOY UNIVERSITY

BURDUR MEHMET AKİF ERSOY UNIVERSITY

www.mehmetakif.edu.tr

Rector's Speech

Burdur Mehmet Akif Ersoy University is a young and dynamic institution that has created itself by synthesizing 50 years of tradition and experience of people dedicated to education.

For a university, beyond providing education and training the effort to make a research, discovery, and reach the truth is also very important. Burdur Mehmet Akif Ersoy University is aware of this responsibility and is committed to creating a free and peaceful, exclusive environment in which all its stakeholders, students and faculty members can research efficiently and effectively. Burdur Mehmet Akif Ersoy University students graduate from this institution with highest level of professional knowledge. Burdur Mehmet Akif Ersoy University offers students opportunities to know themselves in the first years of education, and provide scientific and artistic experience.

Having a close relationship with its students with a qualified academic and administrative staff and creating a warm atmosphere, it aims to integrate its students with its education to be able to keep such values and support educational quality.

With the knowledge that the individual learns more thoroughly when it is part of a community, we are organizing learning as a social phenomenon. As a member of Burdur Mehmet Akif Ersoy University family, we want graduate who can achieve subordinate goals in the tradition of solidarity and interrogation, not just personal accomplishments.

As a young and dynamic university, we believe that we will play an important role in the transformation of Turkey, with our education, research and contribution to society. This belief sheds light on our working more enthusiastically, more decisively and more determinedly day by day.

We invite students, academics and educators who believe to be happy and productive in such an environment to learn more about our university and to join our family.

Prof. Dr. Adem KORKMAZ
Rector

Mehmet Akif Ersoy University

Burdur Mehmet Akif Ersoy University

Founded in 1965 with the name "Burdur Girls' Teacher Training College"; Burdur Mehmet Akif Ersoy University has over 50 years education and research expertise in the fields such as education, health, agriculture, livestock, engineering and basic sciences blending high technology infrastructure and qualified academic and administrative staff. Together with its profound education and research background, it offers a happy learning environment for students with its social and cultural richness.

Burdur Mehmet Akif Ersoy University is a student-centred university with student societies established for social, cultural, artistic and sporting purposes and with a curriculum aimed at educating students as individuals with a high level of knowledge and skills, entrepreneurship and project-producing cultures.

Get One Step Closer To Your Future

A university that has founded technocity

Indoor and outdoor sports hall with international standards

A library rich in content and with modern equipment

Opportunity for minor and double major

Chance to have part-time jobs

High-speed internet facilities

Approximately 300 activities annually

More than 70 student organizations

National and international exchange programs

A Student-Friendly City

We are a universal university located in a nice campus in one of the intimate cities of our country with unique beauties and cultural heritages.

Life in Burdur

The province of Burdur is located in the Western Mediterranean Region known as the Region of Lakes. Burdur is an important city for the region with its scenic beauties and cultural wealth. In the city centre, there are many cafes, pubs and restaurants which offer various tastes and different activities for students. Burdur Lake and the main squares in the centre provide great venues for concerts and cultural events every spring and summer seasons.

Sagalassos

Sagalassos is an archaeological site 30 km away from Burdur. In Roman Imperial Period, the town was known as the first city of Pisidia, a region in the Western Taurus Mountains, currently known as the Lakes Region. During Hellenistic Period, it was already one of major Pisidian towns.

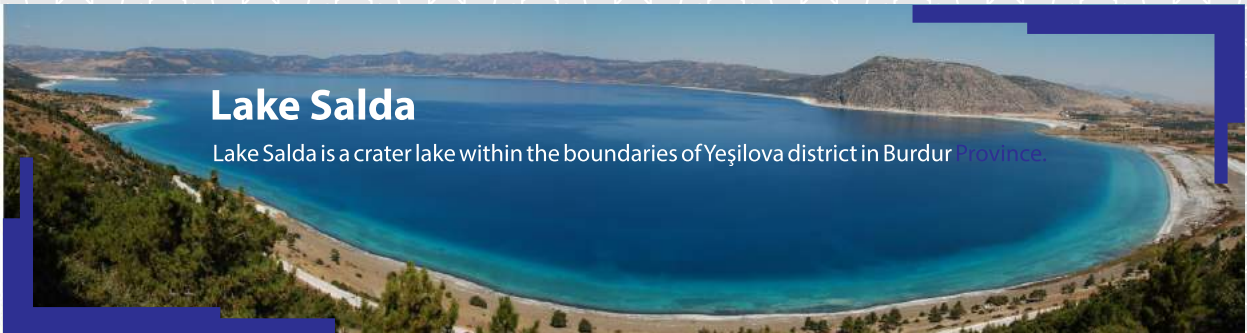

Kibyra

Kibyra is an ancient site in Gölhisar, Burdur, where some gladiator tombs, probably belonging to a gladiator cemetery have been found.

Insuyu Cave

Insuyu is a touristic cave situated near Burdur. Being over 500m (1.600 ft) in length, there are several small lakes in the cave which attract many tourists and local people every year.

Lake Salda

Lake Salda is a crater lake within the boundaries of Yeşilova district in Burdur Province.

A University Of World Standards

We gain our power from the high idealism of Mehmet Akif after whom our university is named and thus help you make your dreams come true. In MAKU, you can set your target, improve your career and decide to make a notable difference in society. You can enjoy the pride of being a part of the global MAKU family.

Outdoor and Indoor Sports Fields in International Standards

Throughout your education, you can benefit from lots of units consisting of semi-olympic swimming pool, tennis courts, basketball, volleyball, handball and soccer fields, squash, table tennis, fitness, step-aerobic-pilates, sauna and steam rooms, athletics and gymnastics, free gymnastics, badminton, far eastern sports, archery, folk dancing, and fitness halls designed in international standards. You can improve your physical and psychological performance with the guidance of proficient fitness instructors.

Modern Library with Rich Content

MAKU Prof. Dr. İlhan VARANK Library supporting traditional library services with the latest technological developments constitutes the substructure of educational activities and scientific research and development activities by meeting users' information needs in a short time and at maximum level. The library, which is one of the most modern structures of our country, has a closed area of 10,000 m² and a seating capacity of 1,500 people.

Student Communities

With over 70 student communities, MAKU is one of the richest universities of Turkey in this respect. These communities offer our students a wide range of hobbies throughout their university education. At MAKU, which has a student community in almost every branch of science, culture and art, it becomes possible to produce something, to acquire new skills, and to develop your human relations by spending your time efficiently.

Social Life

At MAKU there are many scientific, artistic and cultural activities that both the university members and the people of Burdur follow with interest. The campus hosts colourful activities of national and internationally renowned artists and communities, as well as a large number of student communities. For this purpose, it is possible to participate in many kinds of activities from scientific conferences, concerts to exhibitions in almost every day at the MAKU Conference and Exhibition Hall, which has a capacity of 600 people.

Double Major

The double major program allows MAKU students, who successfully pursue undergraduate programs in their departments, to study for a bachelor degree in the second category at the same time.

Minor Degree

Minor Programs are certificate programs that provide the opportunity for MAKU students, who carry out their major undergraduate programs successfully, to learn and train in another branch (minor) they are interested in and eventually receive the certificate.

Undergraduate Transfer

Students who meet the necessary conditions within the framework of regulations and directives may apply for inter-institutional and intra-institutional transfer. Application conditions and quotas are announced at the beginning of each semester.

An Internationalized University

Another important feature of MAKU is that it realizes scientific breakthroughs in a variety of fields such as Erasmus+ and Bologna processes, interuniversity collaboration protocols and interdisciplinary foreign-based research projects. While MAKU aims to be a university that has a grasp of local and national areas in the framework of its innovative axis and to have breakthroughs in international levels, it is also a university where exchange programs are utilized at the top level for students and academic staff in order to make them globalized individuals. Moreover, MAKU is an international university that accepts students from other countries such as the Balkans, Caucasus, and the Republics of the Middle-East and Turkey.

The Internationalisation Strategy of Burdur Mehmet Akif Ersoy University is to enable and advance the University's international reputation in the fields of learning, teaching and research in both European and non-European countries. Burdur Mehmet Akif Ersoy University's internationalisation strategy focuses on local and national diversity. To achieve this strategy, we will accomplish the following goals;

- Be active in international area,
- Increase the number and quality of our international partnerships,
- Make the University stronger through cultural diversity,
- Develop University through the experiences of students and staff within the framework of mobility in European and non-European countries.

International Relations Office

International activities are largely facilitated by International Relations Office. Burdur Mehmet Akif Ersoy University has many Erasmus+ partners from Europe and within the framework of Mevlana Program and joint degree programs; we have agreements with different universities all over the world. MAKU is also a home to many International Students from all over the world.

International Students Office (ISO)

International Students Office (ISO) aims to inform about the application procedure; select, enroll and welcome International Students who are eager to be a MAKU Student. MAKU accepts applications through an online application system every year in May. Applications will be considered according to candidates' academic success. Candidates who are eligible to attend MAKU will receive an acceptance letter which is compulsory for both visa and registration procedures

Erasmus+

If you are an exultant student who wants to see different cities, countries, students and you aim to be very active during your bachelor degree and want to make use of the profits of being a student at the maximum level, MAKU is a perfect choice for you. Thanks to the agreements that MAKU has made with many domestic and abroad universities within the framework of ERASMUS+, you can study at different universities as an exchange student in an academic year. Based on the agreements, you can have education in the universities in England, France, Italy, Spain, Germany, Portugal, Holland, Austria, Poland, Finland, Belgium, Estonia, Lithuania, and in many other prestigious universities in other European countries for one or two semesters.

Erasmus+ House For International Exchange

Burdur Mehmet Akif Ersoy University has an Erasmus+ House where students studying at MAKU through an international exchange program have opportunity to stay during their mobility period.

Mevlana

Mevlana Exchange Programme is a programme which aims the exchange of students and academic staff between the Turkish higher education institutions and higher education institutions of other countries.

Students may study abroad for one (minimum) or two (maximum) semesters and academic staff may lecture abroad from two weeks (minimum) to three months (maximum). Accordingly, students and academic staff from any country may benefit from this programme being hosted by Turkish higher education institutions in order to study or lecture.

Within the scope of Mevlana Exchange Programme, Burdur Mehmet Akif Ersoy University has more than 30 agreements with the higher education institutions in different countries around the world.

Canada, Thailand, Macedonia, Bosna and Herzigovina, Albania, Georgia, Pakistan, Iran, India are some countries in which MAKU has Mevlana Exchange Programme agreement with higher education institutions.

Turkish Teaching Research And Application Center (TOMER)

Turkish Teaching Research and Application Center provides Turkish Language Courses to international students. For those who want to participate in Turkish Language Courses, firstly the placement tests are performed and then students are placed in classes appropriate to their language levels. Turkish language courses are given by academic members who are expert in their fields. Turkish courses are designed according to the European Common Framework of Reference for Languages. Language levels include A1- A2, B1-B2 and C1 levels. MAKU-TOMER is waiting for you to learn Turkish Language and culture in Turkey.

Graduate Affairs And Career Planning Office

MAKU presents opportunities to students in order to reach their future expectations and to have career plans for a happy and successful academic life. Career planning office informs future managers, artists, scientists, and engineers not only about professions and internship opportunities, but also the institutions and corporations where they are going to work. Moreover, MAKU strengthens communication webs among the graduates and informs them about the events and career opportunities that are prepared with the aim of both providing communication among the graduate students with each other and strengthening their relations with the university by updating the graduate information.

Accommodation

On MAKU campus there are dormitories which are 2288 male and 2776 female students, in total with 5064 bed capacity and belong to Higher Education Credit and Hostels Institution. These dormitories, which are designed for modern life standards, present safe, spacious and comfortable dormitory atmosphere to students. In dormitories belonging to Higher Education Credit and Hostels Institution, there are single, double and triple rooms including baths, toilets and refrigerators, and also there are specially designed rooms for disabled students. Furthermore, there are gyms, computerized and free unlimited internet libraries,

music, art, drawing, computer, television, ironing, baggage rooms, laundry, courses and workshop classrooms, conference halls, chess rooms, refectories and canteens. Furthermore, there are so many private dormitories and apartments in the city center.

Food And Meals

MAKU is a university with a modern kitchen complex and numerous dining rooms. Protein and calorie values of meals prepared by an experienced chef team under suitable hygiene conditions and dietician control are published on the website. There are many restaurants and cafeterias within the UniPark Shopping Center located at the student site of MAKU campus where students can spend good time with their friends while having their meals.

Psychological Counselling And Guidance Services

The services aim to help students and university staff improve their life quality by improving their problem solving skills by providing psychological support for problems that they experience in individual, social and academic environments and contribute to the mental, emotional and behavioural development of individuals. The services provided in the Psychological Counselling Unit are free and offered through a psychologist.

Medical Service

Medical and consultancy services are provided to students studying at faculties and colleges of our university. In our department four nurses work. Medical services such as dressing, tension measuring and first aid are provided. When needed, medical service is requested from 112. In emergencies first intervention is applied to the patients and if necessary they are transferred to medical centre which is related. Medical services are provided in one part of the head of Health Culture and Sport Department, Faculty of Veterinary and Faculty of Economics and Administrative Sciences. In addition, two family doctors and one nurse in the Faculty of Letters provide medical service to the students and staff of our university. First intervention is done to the students visiting our medical center if their families may or may not have social security and consultancy and guidance service are provided.

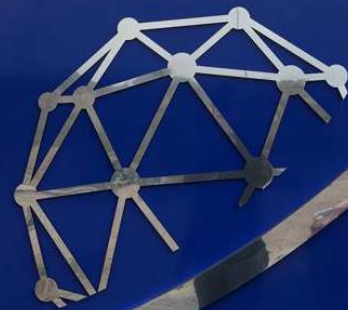

Techno City

Techno cities base on the principle of contributing an optimal style to regional and national economy and triggering university's sources and scientific segregation. For this purpose, Burdur Mehmet Akif Ersoy University has included the techno city to its structure in terms of qualified human power and background facilities being used for creating economic values in the region, commercializing academic knowledge, utilizing local and regional sources, providing environment and support to the companies working in the field of innovative advanced technology and software development for their conducting research and development works.
