

ENERGY AND ENVIRONMENTAL AWARENESS SURVEY

1	Participant status					
	Academy	ifrom personnel	Student			
2	Gender					
	Woman	Male				
3	Age Range					
	18-29	30-41	42-53	54 and above		
4	Method of transportation to the university					
	Special vehicle	Bus	Minibus	Motorcycle	Other	
			Agree	Partly Agree	I'm undecided	I disagree
5	Enough about energy efficiency I have the knowledge.					
6	Knowledge of sustainability Have.					
7	On energy and environmental awareness That a training would be useful Think.					
	Behaviors		My App	Sometimes I apply	I often apply it	All the time I apply
8	Water-saving behaviours I try to exhibit it.					
9	Energy-efficient behaviour I try to exhibit it.					
10	Using environmentally friendly products I work.					
11	Reuse waste I put them in the appropriate recycling bins so that they can be evaluated.					
12	Consume as much as I need I try to do it.					
13	Separate collection of battery waste I work.					
14	I store waste oil separately.					
15	Reuse my waste without throwing it away I try to use it.					
16	Energy when buying a device I pay attention to its consumption.					

17	My devices I don't use I turn it off completely.				
18	Dishes, laundry and drying without fully filling the machine I don't run it				
19	Smart devices and mobile phones, I charge my devices such as tablet computers as soon as they are charged.				
20	In the use of paper, paper towels I am frugal.				
21	In my home or work environment energy saving light bulbs I use it.				
22	I drive my car with other people on my way to work I'll share.				
23	Heating and cooling systems at the required ambient temperature (20- 24°C) I use it to provide.				
24	Renewable energy sources in my site/house/dormitory The energy need is met by using it.
